**CIRCULAR LETTER TO ALL MEMBER COMPANIES**

Re: Workers Compensation Insurance  
Loss Cost Filing

A loss cost reference filing was filed with the North Carolina Commissioner of Insurance to become effective April 1, 2022. This filing was approved as filed to become effective April 1, 2022. A residual market rate filing also submitted to the North Carolina Commissioner of Insurance on September 1, 2021, proposing revised workers compensation insurance residual market rates, rating values and miscellaneous values, is still pending. A circular will be published announcing once residual market rates have been finalized.

Pursuant to the provisions of North Carolina General Statute §58-36-100, a copy of the approved prospective advisory loss costs and a copy of the original reference filing may be obtained from the NCRB web site [Loss Cost Filing Effective April 1, 2022.](#)

The attached exhibits set forth the approved prospective advisory loss costs, rating values and miscellaneous rating values effective April 1, 2022. Except for loss adjustment expenses that are specifically authorized to be included in the loss costs by statute, these loss costs and rating values include no provisions for expenses, dividends, profit or contingencies. The value changes from NCCI Item Filing R-1419 (Update to the Retrospective Rating Plan Parameters) and Item Filing B-1442 (Revisions to Basic Manual Appendix E – Classifications by Hazard Group) have also been approved as filed.

Pursuant to NCGS §58-36-100, the prospective loss costs reference filing does not develop or propose minimum premiums, minimum premium formulas, expense constants or premium discount plans. Any amendments to an insurer's current minimum premiums, minimum premium formula, expense constant or premium discount plan must be filed by the insurer with the North Carolina Department of Insurance.

With regard to the Bureau's prospective loss costs reference filings, NCGS §58-36-100(j) provides as follows:

- (1) If the insurer has filed to have its loss multiplier remain on file, applicable to subsequent reference filings, and a new reference filing is filed and approved and if:
  - a. The insurer decides to use the revision of the prospective loss costs and effective date as filed, then the insurer does not file anything with the Commissioner. Rates are the combination of the prospective loss costs and the on-file loss multiplier and become effective on the effective date of the loss costs.
  - b. The insurer decides to use the prospective loss costs as filed but with a different effective date, then the insurer must notify the Commissioner of its effective date before the effective date of the loss costs.
  - c. The insurer decides to use the revision of the prospective loss costs, but wishes to change its loss multiplier, then the insurer must file a revised reference filing adoption form before the effective date of the reference filing.

- d. The insurer decides not to revise its rates using the prospective loss costs, then the insurer must notify the Commissioner before the effective date of the loss costs.
- (2) If an insurer has not elected to have its loss multiplier remain on file, applicable to future prospective loss costs reference filings, and a new reference filing is filed and approved, and if:
- a. The insurer decides to use the prospective loss costs to revise its rates, then the insurer must file a reference filing adoption form, including its effective date.
  - b. The insurer decides not to use the revisions, then the insurer does not file anything with the Commissioner.
  - c. The insurer decides to change its multiplier, then the insurer must file a reference filing adoption form referencing the current approved prospective loss costs, including its effective date and, if applicable, its loss costs modification factor and supporting documentation. The insurer shall not make a change to its loss cost multiplier based on any reference filing other than the current approved reference filing.

Included in the attached exhibits are approved advisory Miscellaneous Values and Retrospective Rating Plan State Special Rating Values. Pursuant to NCGS §58-36-100(l), as a result of the Commissioner's approval of the miscellaneous and Retrospective Rating Plan values, (i) a carrier may elect to implement the values, in which event the carrier need not file anything with the Commissioner; (ii) a carrier may elect to implement the values with a different effective date, in which event the carrier must notify the Commissioner of its effective date before the effective date of the Bureau filing; (iii) a carrier may elect not to implement the values, in which event the carrier must notify the Commissioner before the effective date of the Bureau filing; or (iv) a carrier may elect to implement the values with modifications, in which event the carrier must file the modifications with the Commissioner, must specify the basis for the modifications and must specify the carrier's proposed effective date, if different from the effective date of the Bureau filing.

With regard to the Loss Elimination Ratios shown with the advisory Miscellaneous Values, a carrier should file with the Commissioner its factor(s) to be applied to the approved Loss Elimination Ratios or its own table of deductible percentages. Similarly, with regard to the Retrospective Rating Plan, each carrier should file its factor(s) to be applied to the Excess Loss Pure Premium Factors and Excess Loss and Allocated Expense Pure Premium Factors or file its own tables. It is the Rate Bureau's interpretation of the statute that, if the carrier's factors for these tables have previously been filed and approved, or, if filed on or after September 1, 1997 and not disapproved, and, if the carrier's factors will not be revised, they may be applied to the April 1, 2022 tables without a new filing with the Commissioner.

Note: The obligations of carriers with respect to use of the prospective loss costs and use of the advisory Miscellaneous Values and Retrospective Rating Plan State Special Rating Values are different. The statutory provisions with regard to use of the approved prospective loss costs and an insurer's loss multiplier are set forth in NCGS §58-36-100, portions of which have been quoted above. With respect to the advisory Miscellaneous Values, and Retrospective Rating Plan State Special Rating Values, a carrier is required to implement those values to become effective April 1, 2022 unless it makes a filing with the Commissioner indicating that it elects to do otherwise, as described above.

As previously stated, except for loss adjustment expenses, the approved prospective loss costs include no provisions for expenses. For your information, the premium tax is currently 2.5% of premium and the insurance regulatory charge is 6.5% of the premium tax for the 2022 calendar year.

The North Carolina Department of Insurance (a) Reference Filing Adoption Form, (b) Summary of Supporting Information Form - Calculation of Company Loss Costs Multiplier and (c) Summary

of Supporting Information Form - Expense Provisions Exhibit, which have been developed for insurers to file their loss costs multipliers and/or amend minimum premium formulas, expense constants or premium discount schedules, may be found under [Rate Filings](#) under Workers Compensation on the Rate Bureau's web site.

Note: The Reference Filing Adoption Form should be completed to show NCDOI File Number: [NCRI-132965544](#), NCRB Reference Filing Date: [September 1, 2021](#) and NCRB Effective Date: [April 1, 2022](#). Item 7, "Provision for loss based assessments" of the Summary of Supporting Information Form - Calculation of Company Loss Costs Multiplier should be completed to show [.000](#).

**Pursuant to NCGS §58-36-100, a copy of each insurer's Loss Cost Multiplier filing must also be sent to the North Carolina Rate Bureau.**

The April 1, 2022 advisory loss costs, rating values and miscellaneous values are posted on our web site at [www.ncrb.org](#). The filing proposed an average loss cost decrease of 5.3% from loss costs effective April 1, 2022. For the federal classifications, the approved overall advisory loss costs change is a decrease of 14.5% relative to the overall advisory loss costs level currently in effect.

To assist carriers in the mechanics of generating individual class code rates, a file identified as "April 2022 Loss Costs by Industry Group" may be found under [Rate Filing](#) in the Workers Compensation section of the Rate Bureau's web site. This file has each class code assigned to one of the following industry groups:

- |  |                                  |

If you would like to have the loss cost and residual market rates in a different format, please send an e-mail to Karen Ott ([klo@ncrb.org](mailto:klo@ncrb.org)) and we will promptly forward it to you.

Sincerely,

Joanna Biliouris

- F Advisory loss cost provides for coverage under the United States Longshore and Harbor Workers Compensation Act and its extensions. Loss cost contains a provision for USL&HW Assessment.
- M Risks are subject to Admiralty Law or Federal Employers Liability Act (FELA). However, the published loss cost is for risks that voluntarily purchase standard workers compensation and employers liability coverage. A provision for the USL&HW Assessment is included for those classifications under Program II USL Act.
- N This code is part of a ratable / non-ratable group shown below. The statistical non-ratable code and corresponding advisory loss cost are applied in addition to the basic classification when determining premium.

(Multiply a Non-F classification loss cost by a factor of 1.58 to adjust for differences in benefits and loss-based expenses. This factor is the product of the adjustment for differences in benefits (1.50) and the adjustment for differences in loss-based expenses (1.052).)

**Experience Rating Eligibility**

A risk is eligible for experience rating when the payrolls or other exposures developed in the last year or last two years of the experience period produced a premium of at least \$12,000. If more than two years, an average annual premium of at least \$6,000 is required. These amounts are applicable for ratings effective April 1, 2022, and subsequent. The **Experience Rating Plan Manual** should be referenced for the latest approved eligibility amounts by state.

For Expected Losses greater than \$5,515,125, the Ballast Value can be calculated using the following formula (rounded to the nearest 1):

$$\text{Ballast} = (0.10)(\text{Expected Losses}) + 2500(\text{Expected Losses})(11.55) / (\text{Expected Losses} + (700)(11.55))$$

G = 11.55
