CIRCULAR LETTER TO ALL MEMBER COMPANIES

Re: Workers Compensation Insurance

North Carolina Basic Manual – Part II – Classifications Deletions and Revisions to Miscellaneous Class Code Phraseology Notes

The North Carolina Rate Bureau (NCRB) has filed and the North Carolina Commissioner of Insurance has approved revisions to the North Carolina Basic Manual for Workers Compensation and Employers Liability (NC Basic Manual). The approved revisions are related to changes being made by way of NCCI Item B-1440 — Revisions to the Basic Manual, Including Reformatting, the Preface, and Appendix G. The approved changes will be applicable to all new and renewal voluntary and assigned risk policies becoming effective on or after June 1, 2020.

The changes based on NCCI Item B-1440 revise the classification section of the state-specific NC Basic Manual to eliminate multiple iterations of classification phraseologies and phraseology notes not associated with a specific classification in Part II – Classifications.

NCCI's proposal to reformat the Preface and Appendix G are not applicable to North Carolina.

NCCI Exhibits 1, 3, and 4 in NCCI Item B-1440 are not applicable to North Carolina.

Classifications to Be Reformatted

North Carolina does not subscribe to the NCCI "online" Basic Manual. Therefore, not all formatting changes proposed by way of NCCI Item B-1440 are applicable for North Carolina. Other miscellaneous North Carolina Basic Manual changes unrelated to NCCI Item B-1440 are proposed and included in state exhibits as well. Proposed changes applicable to the "online" NCRB Basic Manual are to be effective June 1, 2020 and are outlined in NCRB Exhibits 1-2.

A complete copy of NCCl's Item Filing B-1440 and exhibits outlining all NC Basic Manual changes are included for your review.

If you have any questions, contact the NCRB Information Center at 919-582-1056 or via email at support@ncrb.org.

Sincerely,

Joanna Biliouris

North Carolina Rate Bureau Filing Memorandum

RE: North Carolina Basic Manual - Part II – Classifications Deletions and Revisions to Miscellaneous Class Code Phraseology Notes

PURPOSE

The purpose of this item is to enhance the state-specific North Carolina Basic Manual by updating Part II – Classifications.

Exhibits outlining North Carolina state-specific changes follow this memorandum and are labeled NCRB Exhibits 1 and 2.

BACKGROUND

NCCI has an ongoing process in which they systematically research, analyze and maintain NCCI's manuals, rules, and classification system. NCCI's systematic research, analysis and maintenance are national in scope. However, NCCI also recognizes the occasional need for state-specific manual, rules and classification treatments to reflect geographical differences. NCCI's analysis includes assessing the continuing viability of more than 800 national and state special classification codes. With some exceptions for state-specific classifications, North Carolina adheres to the NCCI national classification system.

NCCI Item B-1440 is a product of the NCCI's ongoing systematic research, analysis and maintenance of NCCI's manuals, rules and classification system review process. This filing memorandum proposes that a number of National classification phraseologies and phraseology notes be eliminated or revised to improve online search tools. Many online tools being used today provide "Find" features that allow "Keyword" search capabilities. With the development of these enhanced online tools multiple iterations of classification phraseologies and phraseology notes not associated with a specific classification can be eliminated.

NCRB Staff has reviewed the changes being made by way of NCCI Item B-1440 to the classification section of the NCCI Basic Manual and believes it appropriate for North Carolina to consider changes in the state-specific North Carolina Basic Manual.

NCCI's proposal to reformatting the Preface and Appendix G are not applicable to North Carolina.

State-Specific Exhibits

NCCI Exhibits 1, 3 and 4 in NCCI Item B-1440 are not applicable to North Carolina.

Classifications to Be Reformatted

North Carolina does not subscribe to the NCCI "online" *Basic Manual*. Therefore, not all formatting changes proposed by way of NCCI Item B-1440 are applicable for North Carolina. Other miscellaneous North Carolina Basic Manual changes unrelated to NCCI Item B-1440 are proposed and included in state exhibits as well. Proposed changes applicable to the "online" NCRB Basic Manual are to be effective June 1, 2020 and are outlined in **NCRB Exhibits 1-2**.

PROPOSAL

The Bureau proposes the adoption of revisions to the state-specific North Carolina Basic Manual that eliminates multiple iterations of classification phraseologies and phraseology notes not associated with

FILING MEMORANDUM

ITEM B-1440—REVISIONS TO THE BASIC MANUAL, INCLUDING REFORMATTING, THE PREFACE, AND APPENDIX G

PURPOSE

This item updates certain sections of NCCI's **Basic Manual for Workers Compensation and Employers Liability Insurance (Basic Manual)**.

The sections and states impacted by this item, and the applicable fact sheets and exhibits, are listed in the Exhibit Comments and Implementation Summary table in this filing memorandum.

BACKGROUND

Part Two and Part Four

NCCI's **Basic Manual** was last rewritten in its entirety with Item B-1369—2001 Basic Manual for Workers Compensation and Employers Liability Insurance.

One of NCCI's core functions is the ongoing process dedicated to the systematic research, analysis, and maintenance of NCCI's manuals, rules, and classification system. This process ensures that NCCI remains responsive to the needs of various industry stakeholders.

Since Item B-1369, NCCI has submitted several filings including Item B-1411—Revision to Basic Manual Introduction—Application of Manual Rules and Part Two—Classifications. Item B-1411 was filed to clarify and enhance the *Basic Manual* by implementing changes to:

- Part Two—Classifications by creating data tables that assist with determining effective dates, exceptions, and applicability
- Part Four—Classifications Pending, which showed the classifications that are pending discontinuation until the effective date of the change or completion of a transition program

In September 2018, NCCI released a new *Class Look-Up* tool designed to modernize workers compensation stakeholder access to classification code and statistical code information. Due to the implementation of the *Class Look-Up* tool, the data tables in Part Two are no longer needed and Part Four can be eliminated.

Classifications to be Reformatted

Certain classifications in Part Two—Classifications of NCCI's **Basic Manual** must be revised to simplify their display and to improve online search results. Some wording will be revised to:

- · Maintain the proper context of the information when displayed on a separate Web page
- Modernize the language and bring the classification in line with NCCl's current standards
- Eliminate phraseologies and notes not associated with a specific classification
- Revise certain classifications' designations for consistency with designations applicable to other phraseologies in the same classification group

FILING MEMORANDUM

ITEM B-1440—REVISIONS TO THE BASIC MANUAL, INCLUDING REFORMATTING, THE PREFACE, AND APPENDIX G

Preface and Appendix G

NCCI's **Basic Manual** Preface provides information about manual organization, jurisdiction applicability, and the locations of NCCI's office and customer service centers. As part of NCCI's review, various changes that need to be made to the Preface have been identified and will be made as part of this filing.

Appendix G provides information to policyholders on how to resolve disputes and where to mail dispute materials. NCCI has changed the email address for submitting information and must revise that address in Appendix G.

This item also includes proposals for changes to individual classifications and rules, including format and consistency-only changes, if applicable. The proposed changes are detailed in each exhibit. The background information is contained in each exhibit's fact sheet.

PROPOSAL

This item is presented with fact sheets and exhibits as shown in the Exhibit Comments and Implementation Summary table. The fact sheet for each exhibit details the proposals relating to that exhibit, as well as the background and basis for the proposed changes, the estimated impact of the proposals, and the details of the implementation.

IMPACT

There will be no premium impact as a result of the changes proposed in this item.

EXHIBIT 1—FACT SHEET PREFACE AND APPENDIX G

PURPOSE

NCCI proposes that certain sections of the Preface and Appendix G—Dispute Resolution Process in NCCI's **Basic Manual** be revised.

BACKGROUND

As part of NCCI's ongoing process dedicated to the systematic research, analysis, and maintenance of NCCI's manuals, NCCI identified a need to revise the Preface and Appendix G—Dispute Resolution Process of its **Basic Manual**.

PROPOSAL

The following is a summary of the key changes proposed for the Preface and Appendix G:

Preface A—Organization of the Manual

Preface A details the structure of the **Basic Manual**. This item proposes to eliminate Part Four—Classifications Pending; therefore, the reference to Part Four in Preface A must be eliminated.

Preface D—Jurisdictions Where Rule 4 Applies

Preface D provides a table that summarizes, by state, the applicability of residual market-specific Rules 4-A to 4-I where NCCI is the Plan Administrator or provides Plan Administration services. This information is also contained in NCCI's companion to Rule 4—Workers Compensation Insurance Plan. The companion is the *Assigned Risk Supplement to the Basic Manual for Workers Compensation and Employers Liability Insurance*, Appendix C—Rules and Rating Programs. Because it is not NCCI's intent to duplicate information in these two manuals, it is proposed that Preface D be removed from the *Basic Manual*.

Preface E—Offices of the National Council on Compensation Insurance, Inc.

Preface E provides information on NCCI's headquarters and customer service locations. Because this information resides in the *Basic Manual*, any changes that are made to it require an item filing. To facilitate quicker changes to this information in the future, NCCI is proposing to move this section to the *Basic Manual User's Guide*.

Appendix G—Dispute Resolution Process

Appendix G provides policyholders with the means to resolve disputes regarding the application of NCCI manual rules to NCCI's Workers Compensation and Employers Liability Insurance Policy (Policy). Item number 5—Where to Send Documents, of Appendix G, provides the mailing, and email addresses, and fax number for policyholders to submit their requests and additional information specific to their dispute. NCCI has revised the email address and therefore, must revise this section.

IMPACT

There will be no statewide premium impact as a result of the changes proposed in this item.

EXHIBIT 2—FACT SHEET

CLASSIFICATIONS TO BE REFORMATTED

PURPOSE

The proposed changes are to reformat certain classifications in Part Two—Classifications of NCCI's **Basic Manual** to simplify the display of the classifications in the manual for improved online search results. This item also updates the designation for various classifications.

BACKGROUND

Classifications to be Reformatted

There are various reasons for proposing that certain classifications be reformatted in Part Two—Classifications of NCCI's **Basic Manual**:

- Presently, when one phraseology note applies to multiple phraseologies, the phraseologies are displayed
 as a list, followed by the note. The classifications must be reformatted so that the phraseology note is
 displayed with each phraseology.
- Some phraseologies and notes do not have an associated code and only provide reference information. These phraseologies and notes must be eliminated where possible.
- Some phraseology notes need to be revised to maintain the proper context of the information when displayed on a separate Web page.
- Some redundant classification references must be eliminated.

The proposed formatting changes will improve online search results. The new structure will also allow online users to successfully search by code number or applicable phraseologies.

Reformatting will not result in the reclassification of any employers.

Part Two—Classifications—Designation Update

Classification designations are detailed in NCCI's **Basic Manual** Rule 1-D-3—Assignment of More Than One Basic Classification. This rule provides the conditions for the assignment of more than one basic classification when an employer has a specific type of operation.

- Rule 1-D-3-d—Construction or Erection Operations details that such classifications are identified by a circle symbol (•). The rule allows for each distinct type of construction or erection operation to be assigned to the classification that specifically describes the operation if separate payroll records are maintained.
- Rule 1-D-3-e—Farm Operations details that such classifications are identified by a square symbol (■).
 The rule allows for a division of payroll among the classifications for each separate and distinct type of commercial farm if separate payroll records are maintained.
- Rule 1-D-3-g—Mercantile Businesses details that such classifications are identified by a diamond symbol
 (♦). This rule applies to a store or dealer that sells goods, merchandise, or services and requires that
 classifications be assigned separately for each location.

A routine review was performed to determine whether classification designation changes are warranted. Several changes have already been made to state-specific classifications through the state item filing process. However, three national classifications and one Alaska-specific classification require an addition or revision of a designation. Specifically, it is proposed that national Code:

- 6319—Gas Main or Connection Construction & Drivers have its designation changed from mercantile to construction
- 8046—Automobile—Recycling have the mercantile designation added
- 8279—Dog Show—Kennel Employees & Drivers have its designation changed from mercantile to farm

EXHIBIT 2—FACT SHEET (CONT'D)

It is also proposed that the construction designation be added to the Alaska-specific phraseology for Code 6400—Mobile Home Windstorm Tie-Down Installation—By Specialist Contractor.

The designation additions and revisions are consistent with the designations already applicable to the other national phraseologies for the same classifications.

Part Two—Classifications—Data Tables

Effective April 1, 2009, Item B-1411—Revision to Basic Manual Introduction—Application of Manual Rules and Part Two—Classifications added a data table for each classification entry in the **Basic Manual** to provide users with information regarding effective dates, exceptions, and applicability of class codes.

NCCI recently released its *Class Look-Up* tool on **ncci.com**. This tool introduced certain functionality that renders some of the content in the *Basic Manual* obsolete because the tool includes the information that was previously provided in the data tables. As a result, references to the data tables must be eliminated.

PROPOSAL

This item proposes to:

- Reformat certain classifications in Part Two—Classifications of the Basic Manual
- Eliminate phraseologies and notes not associated with a classification code
- Revise the classification designations for national Codes 6319 and 8279; add the mercantile designation to national Code 8046; and add the construction designation to Alaska Code 6400
- · Address the removal of the reference to the data tables

Plain language changes are also recommended for some of the classifications in Exhibits 2 and 4.

IMPACT

There will be no statewide premium impact, and no changes are proposed to the loss costs or rates for any of the classifications being reformatted in this item.

ADDITIONAL STATE-SPECIFIC PROPOSALS AND IMPACTS

All state exceptions will continue to apply unless otherwise noted in the state-specific exhibits (Exhibit 4).

Alaska Proposal:

Add the construction designation to Code 6400—Mobile Home Windstorm Tie-Down Installation—By Specialist Contractor.

Alaska Impact:

There will be no statewide premium impact in Alaska as a result of the national and state-specific proposals.

Arizona Proposal:

- Eliminate the Arizona special classification phraseology and note for Concrete or Masonry—Sawing,
 Coring or Drilling and Trucking. They are not associated with a classification and should be eliminated for improved online search results.

EXHIBIT 3—FACT SHEET

PART FOUR—CLASSIFICATIONS PENDING

PURPOSE

The proposed changes eliminate Part Four—Pending Classifications in NCCI's Basic Manual.

BACKGROUND

Part Four—Classifications Pending

Item B-1411—Revision to Basic Manual Introduction—Application of Manual Rules and Part Two—Classifications was filed effective April 1, 2009. This item added Part Four—Classifications Pending to show classifications that are:

- No longer in effect nationally but remain state specials until each state's effective date
- Pending discontinuation until the effective date of the change or completion of a transition program

Since the implementation of Item B-1411, various upgrades have been made to improve NCCI's ability to provide classification information on **ncci.com**. This warrants a review of how the same information is presented in the online and hard copy versions of the **Basic Manual**. Most recently, NCCI released its **Class Look-Up** tool on **ncci.com**. This tool introduced certain functionality that renders some of the content in the **Basic Manual** obsolete. Specifically, the tool:

- Provides a central look-up for classifications and statistical codes, loss costs and rates, and associated code elements, such as effective and discontinued dates
- · Includes all phraseologies for each classification, by state
- Enables customers to refine their search results by user-defined criteria

As a result of implementing the *Class Look-Up* tool, the information contained in Part Four—Classifications Pending is no longer necessary and is being eliminated.

PROPOSAL

This item proposes to eliminate:

- 1. Part Four A—Classifications Pending Discontinuation
- 2. Part Four B—Classifications Pending Completion of Transition Program

IMPACT

There will be no statewide premium impact as a result of this item.

Deleted: TRAILER BODY MFG - NOT HOME TYPE

Deleted: See Automobile, Bus, Truck or Trailer Body Mfg.

Deleted: TRUCKING

Deleted: Truckers engaged in hauling under contract, whether for one or more individuals or concerns, shall under no circumstances be classified and rated except in accordance with the appropriate "Trucking" classification. Exception: When trucking operations are a secondary business and conducted as a separate undertaking or enterprise, the payroll of an individual employee may be divided and allocated to other than a "Trucking" classification. Refer to Rule 1>E. Each classification includes miscellaneous employees such as terminal employees, garage employees, and repairers. Switcher operations in connection with a trucking operation are to be considered miscellaneous employees and assigned to the appropriate trucking classification. Employers that provide switcher operations to others thus not properly assigned to a trucking operation and not in support of their own business, are to be assigned to Code 8292.
