Statistical Plan Manual-Digital Edition

The North Carolina Rate Bureau is pleased to announce the introduction of the new interactive North Carolina Workers Compensation Statistical Plan Manual-Digital Edition. The digital edition of the Statistical Plan Manual is an enhanced database-driven framework. The library is intended to allow for faster and easier access to the content contained in the Statistical Plan Manual.

The conversion to a database-driven web application is intended to provide enhanced benefits such as:

- Easier navigation
- The ability to highlight text
- Links provided between Bureau circulars and the North Carolina Workers Compensation Statistical Plan Manual
- An interactive table of contents and index
- Access to historical information
